TUFTONBORO CONSERVATION COMMISSION

The Conservation Commission addressed the following matters for the year 1992:

New Applications:	17
Permits Issued	21
Applications Denied	3
Fine Assessments	2
Denial of Fine Assessment	1
Time Extensions	3
Notification of Legal Action Taken by Wetlands Board	2
Removal Order Deadling Extension	1
Commission Complaints to Concord	2
Complaints & Investigations	4
Reapplication Request	1
More Information Request	3
Underground Fuel Tank Removal Ordered	1
Intent to Cut Within Wet Area	1

The Commission sponsored a Tuftonboro youth to the Barry Conservation Camp during the summer of 1992. Due to its success, we intend to sponsor a boy and a girl to the camp in 1993. The only requirement is that the applicant be 10-16 years of age, resident and student at Tuftonboro. The commission continued its nature trail work behind the Tuftonboro Central School with the Tuftonboro Central School students.

The selectmen appointed the conservation commission stewards of the Bentley-Parkhurst Nature Area at 20 Mile Bay. The LCIP provided assistance in the acquisition of the Land and a sign has been erected at the site. As the statistics show, the Wetlands Board has become very focused in its permit application review process. It requires all applications to conform to a revised form requiring much detail to be submitted.

1992 REPORT OF THE TUFTONBORO HIGHWAY DEPARTMENT

Snow squalls at the end of September had everyone thinking we might have a snowy winter—however we did have considerable snow in mid April, and lots of ice at the end of the year. The fifteen hundred (1500) yards of sand that was stockpiled for winter use was greatly needed.

This year in addition to the usual grading of dirt roads, roadside mowing, ditching, etc., significant road improvements were completed through Tuftonboro. On Wawbeek road, seven hundred (700) feet of underdrain and five (5) catch basins were put in and the road was rebuilt and paved. The Elm Point end of Cross Neck road had the final application of gravel and was also paved. The Boycroft end of the same area was paved and the ditches cleaned out. Fourteen hundred (1400) feet of Northline road was rebuilt and paved. A section of Sodom road was improved with logs and large rocks removed from just under the surface. Geotextile was then installed under eighteen (18) inches of gravel. On the Canaan Valley road a six (6) foot steel culvert was installed replacing the damaged aluminum pipe that was there. Large rocks under the road surface were also removed from Brown road and Tupeck lane. Guard rail was installed on the High street bridge area and nine (9) pilings were replaced on the town dock.

During the year some members of the highway department attended meaningful workshops and seminars. In May the University of Oklahoma sponsored the National Road and Street Conference, in June the NH Road Agents Association sponsored an excellent day of demonstrations, displays of new products, ideas and equipment at Waterville Valley. Also in Meredith, UNH and the T3 Center sponsored the National Highway Institute Geotextile design and Construction seminar. Following that, the Environmental Service and Department of Agriculture, and the T3 center held a conference and demonstrations in Moultonboro at the town garage dealing with road drainage and maintenance. All of these meetings, conferences, etc. were informative, interesting and well worth attending.

The Tuftonboro Highway department has installed two (2) way radio frequencies to communicate with the Fire department and Civil Defense when the need arises. The department also maintains close communication with NH Department of Public Works Division Three (3), regarding all road conditions at all times. Thanks EVERYONE for all your help, I really appreciate it. The Sheriff's department and the Tuftonboro Police department have been especially helpful monitoring the recurring and evasive icy road conditions.

Reg Colby, Road Agent

TUFTONBORO POLICE DEPARTMENT

The Department had a busy year. From the end of April through Labor Day weekend, we had sixteen hours of patrol. This is the first year that we were able to do this. It is felt that, as a result of the extra hours, there were fewer accidents. There were a total of 790 motor vehicle stops with 118 summoned.

In April we required the services of the New Hampshire State Police Swat Team to assist in the removal of a wanted subject. The subject was wanted out of Concord for the brutal attack and stabbing of a couple in their home. The subject was removed without incident. In July, a citizen reported to our Department that he had discovered some suspicious looking plants on his property on route 109. After we investigated the incident we requested the services of the New Hampshire State Police Narcotics Investigation unit to assist in the eradication of twenty-seven Marijuana plants. The plants that were eradicated were potted when they were found and were approximately sixteen inches in height. This eradication effort was the result of on-going investigations into the illegal cultivation of cannabis crops in New Hampshire. Had the crop reached maturity, it could have had a street value of between $50,000 and $60,000.

In September we investigated an incident which appeared to be cult related. The investigation revealed that it was a copy-cat type incident and there have been no further incidents of that nature.

In December we had a large number of break-ins which appeared to have occurred between the 6th and 12th of December. The case is still under investigation and feel it could be related to break-ins in neighboring towns.

The Department now owns a video camera. Anyone wishing to have tapes made of their valuables for insurance purposes may contact the department for details.

Should you require the services of the Department, the numbers to call are 539-2284 or 1-800-552-8960. If anyone sees anything suspicious, please attempt to write down the description or registration numbers of vehicles that may be involved. This will greatly help in investigating incidents.

I wish to thank the New Hampshire State Police, Troop E, for their assistance throughout the year.

Respectfully Submitted,

Charles "Terry" Berry, Chief

PARKS AND RECREATION DEPARTMENT
1992 REPORT

1992 showed increased usage of all Parks and Recreation facilities. Davis Field was once again used for over 20 Little League games and Women's softball. Numerous family groups also used the facility. In the fall, over 20 youth soccer games were played, and of course, the field was used on a daily basis by students at Tuftonboro Central School.

Mary Ann Murray's swim program at the Melvin Beach continues to be very successful, and she is looking forward to the creation of the 19 Mile Bay Beach.

The Parks and Recreation committee thank Fran Laase for taking care of the buoys at 19 Mile Bay.

Dana & Jeri Anderson are working on the Davis Field playground. Together, we will be working to coordinate with the Tuftonboro School Playground committee, preparing to deal with any changes in the School facility. As well as maintaining the current programs and facilities.

Bruce Johnson
Parks & Recreation Director

1992 LIBRARIAN'S REPORT

In 1992 the finishing touches were put on the expanded library. Many hours were spent spreading top-soil and planting dozens of small trees, flowers and shrubs on all sides of the library. Many thanks to Spider Web Gardens and volunteer gardeners Jeremy Hogdon and Debbo Hedden for a great landscaping job.

1992 was a year marked by volunteers helping out the library: Peggy Bashe continues to be a mainstay on Wednesday afternoons; Maggie Croteau is now working with the pre-school story hour, tending the desk when needed; Len and Midge Preston coordinate the art shows each month, Len arranges the hangings and Midge writes the press releases. A special thanks to Len for using his calligraphic talents to create a beautiful book that lists all who made donations to the Building Fund. A high-light of the many fine shows was having the paintings done by residents of the Mountain View Nursing Home, who visited the library to have lunch and see their work on display. Veronica Leipert and Barbara McClure continue to assist with the ongoing automation project and wherever they are needed; Pat Healy and Kris Kennison helped plan and put on our Pre-school story hour. All of these people donating their time so freely help to make the library a special place.

Major acquisitions last year include a Macintosh personal computer for patron use, paid for with money left in the Building Fund, and an antique needlepoint donated by Louise Mills of Melvin Village. The large cross-stitch shows Benjamin Franklin seated in his study, surrounded by some of the results of his fruitful life.

Some of the programs offered to the public were a presentation by children's author Amy MacDonald and a UNH sponsored baby-sitting course that was well attended by local young people. One other notable event was the discovery of slight contamination of our well, under orders from the State it has been replaced and now tests clean. Monitoring of the well's purity will continue.

The Year End Totals show substantial increases in circulation and patronage; this indicates that the library's expansion is responsible for increased activity that is likely to continue and grow. Some goals for 1993 include making the transition to automated circulation and expanded program offerings for children and adults.

I would like to thank all who have contributed time and funds to the library—Volunteers, Friends, patrons, a great group of trustees and, most of all, my two assistants Janet Moody and Mary Bagg who continue to keep things running smoothly and make the library such a nice place to visit.

Gus Hedden, Director
Tuftonboro Free Library

REPORT OF THE TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER

December 7, 1992

1992 was below average for wildfires reported in our state. Our largest fire was in May in Rumney where a suspicious origin fire burned approximately 150 acres with a total cost of approximately $30,000. The N.H. Division of Forests and Lands assisted many other communities in wildland fire suppression as well.

Our fire lookout towers reported 289 fires, burning a total of 136 acres. Our major causes of fires were fires kindled without a permit, unknown causes and children.

Please help your town and state forest fire officials with fire prevention. New Hampshire State Law (RSA 224:27) requires that, "No person, firm or corporation shall kindle or cause to be kindled any fire or burn or cause to be burned any material in the open, except when the ground is covered with snow, without first obtaining a written fire permit from the Forest Fire Warden of the town where the burning is to be done." Violation of this statute is a misdemeanor, punishable by a fine of up to $1,000 and/or a year in jail and you are liable for all fire suppression costs.

Local fire departments are responsible for suppressing fires. The small average fire size of .47 acre/fire is a tribute to early detection by the public or our fire tower system and the quick response of our trained local fire departments. Please help your Warden and fire department by requesting and obtaining a fire permit before kindling an open fire.

The N.H. Division of Forests and Lands assisted 28 towns with a total of $20,000 in 50/50 cost share grants for fire fighter safety items and wildland suppression equipment in 1992.

If you have any questions regarding New Hampshire forest fire laws, please contact your local Forest Fire Warden, State Forest Ranger, or Division of Forests and Lands at 271-2217.
